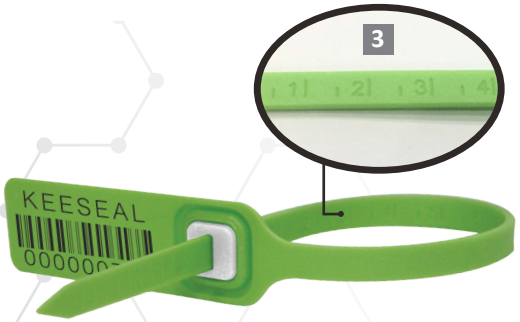
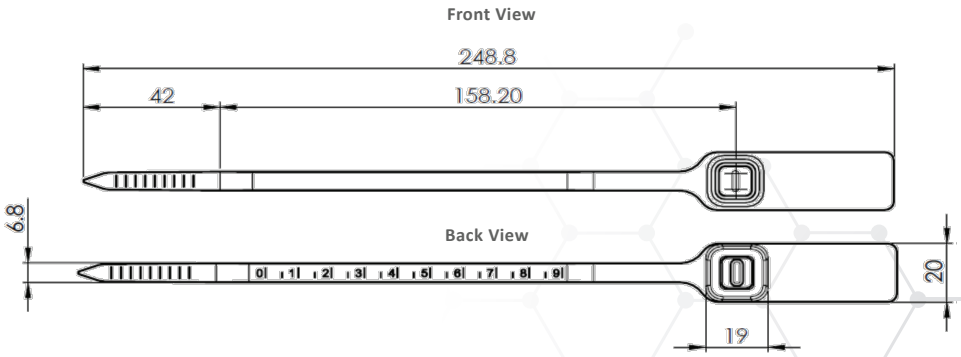
Indicative Flat Stem Pull Tight Seal · Data Sheet

KEESEAL No Hole

MEGA FORTRIS GROUP





Indicative Flat Stem Pull Tight Seal

Features

1. The KEESEAL no hole are etched with permanent laser marking. Laser marking offers the highest level of security as it cannot be removed and replaced without tamper evidence.
2. The metal Jaw lock escapsulated by a cap provides greater security and also pull strength despite the thin and flexible strap.
3. The embedded ruler or marking at the back of the seal provide better strapping grip on bags or other slippery materials with an accurate measurement.
4. Alternative- Eco-friendly security seal with added Biodegradable plastic additive. It enhances the ability of plastic to degrade by microorganisms in landfills, anaerobic digestion systems and aerobic facilities.
   **without changing any technical properties of the seal.*
5. The KEESEAL comes with an additional marking (numbering) for locking seal length indication.
