

Mini Cable Lock Premium

The most tamper evident small cable seal.

Very user-friendly and highly tamper-evident and tamper resistant. The Mini Cable Lock Premium seal (MCLP) can be applied to secure a wide range of applications requiring a small but strong seal.

The Mini Cable Lock Premium is one of Mega Fortris' bestselling semi-barrier security seals. It is widely used on trucks, tanker trucks, air cargo containers, shipping containers, rail cars, calibrators, drums, totes, cages and valves in various industries.

Features

- 1 The zinc body is molded with high-impact ABS material and filled with a galvanized steel wire. The resilient high-impact ABS material does not break easily and shows clear evidence of tampering.
- 2 The protruding lip feature made of zinc cast at the entry and exit hole of the seal's locking house provides good protection against pinching and other types of tampering.
- 3 One end of the 7- strand non-preformed cable is permanently secured into the locking body. The cable ravelers when out to prevent reinsertion.
- 4 The Mini Cable Lock Premium is laser engraved with permanent laser marking of names, logos, sequential numbers and bar codes. Laser marking is permanent and tamper resistance.

Technical Specifications

PRODUCT

Product	Material	Cable Length STD	Cable Diameter	Tensile Strength	Marking Area	Max Marking Digits
MCLP 180	Body: Zinc and ABS Cable: Galvanized steel wire	356mm (14 in) <i>*can be customized</i>	Ø 1.8 mm (Ø 0.07 in)	340kg (661 lbs)	Body: 22mm x 12mm (0.87in x 0.47in)	Serial no: 6

INNER CARTON

Product	Carton Quantity	Dimensions	Weight /carton	Volume /carton	Standard Colors
MCLP 180	500 pcs	300 x 280 x 170 mm (11.8 x 11.02 x 6.69 in)	5.85 kgs (13 lbs)	0.01428 m ³ (0.50429 f ³)
