

Mega Secure Box

Solid, Transparent and Tamper-Evident Vault

The Mega Secure Box is designed for a variety of applications that include the financial services, banking, retail and law enforcement sectors.

The easy manual locking system, the high visibility of tamper attempts, and the ability to visually inspect the seal and box contents all contribute to an effective and efficient integrated security system.

The Mega Card Box is available only in a transparent natural color, and is suitable for use in temperatures ranging from -20°C to 110°C.

Features

- 1 The Mega Secure Box is made of transparent polycarbonate which allows the contents and the seals to be visually inspected at a glance.
- 2 The practical lid design allows for good stacking of boxes on top of one another which saves space in transit, contributing to operation efficiency.
- 3 The sliding lid has a back-stop mechanism on the other end to prevent it from slipping off the box.

Technical Specifications
